At **HR Circle Consulting, LLC** our team has over 60+ years of combined knowledge. With that knowledge we are able to partner with you for the long game offering you solutions that work for you.

Why? Because your organizations needs come first, always.

flexible solutions for your business needs

PERFORMANCE MANAGEMENT

With Performance Management – You get what you pay for...

Do your employees know what's expected of them?

Do they understand why what they do matters?

Are your employees curious about how their performance helps the organization to perform better?

We are here to help you to devise a plan which will set the experience, behaviors, and outcomes you want to see from the people you invest in daily to help you run your business.

EMPLOYEE ENGAGEMENT

Engaged = engagement — employee engagement is all about the courtship. We are here to help you engage your employees and keep them from becoming disengaged. As we know, an engaged employee will go the extra mile, while a disengaged employee is ready to take the next step...out the door.

CUSTOM SOLUTIONS

As part of the value of being in the 'circle' our approach is and will always be customized for your needs.

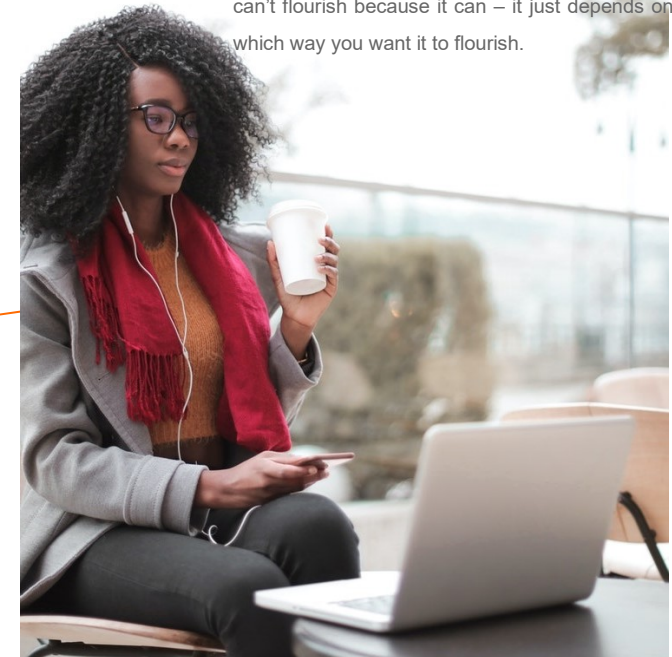

JUST STARTING SOLUTIONS

If your organization is a new business or growing business and are looking to ramp up your employee base to 50 or more full-time employees, yet you don't have a dedicated human resources team, we're here for you.

CULTURE SOLUTIONS

With everything that is going on in the world today, we get that your business may be *running all over the place* while employees are working from home. That doesn't mean your organization's culture can't flourish because it can – it just depends on which way you want it to flourish.

PUT THE WORK OF OUR KNOWLEDGE AND EXPERTISE TO WORK FOR YOU
